Pagrindinės savybės

- ✓ Privatumo ekrano aspauga Apple
- ✓ Juoda, Permatomas Grūdintas stiklas 10H
- ✓ Atsparus nešvarumams, Atsparus smūgiams, Atsparus įbrėžimams
- ✓ Patikima ekrano aspauga Užapvalinti kraštai
- ✓ Sausas naudojimas Atsparus pirštų atspaudams
- ✓ 1 vnt

Aprašymas

PRIVACY Full Cover Real Glass with EASY-ON® Eco Mounting Frame

Privacy Filter

Thanks to the special privacy filter integrated into the protective glass, the display light is only transmitted from a certain viewing angle. This means that the screen appears black from a viewing angle of 30° or more. The glass thus offers effective protection against side glances from, for example, seat neighbours on trains, planes or buses. And all of this, of course, without any negative impact on colour fidelity or display quality. So if you use your smartphone to store and edit sensitive data - whether for business or private use - the Privacy Glass is an option worth considering.

Full screen coverage

Compared to the so-called 2D protective glasses, Displex Full Cover protective glasses cover not only the active display area, but the entire display area. This means optimum protection of the entire display and an improved user experience: maximum protection without annoying edges. This feature is particularly advantageous for smartphones with rounded displays. Since the screen protector adapts perfectly to the rounded display and thus protects the entire display area.

Tempered glass with rounded edges

All Displex protective glasses have a surface hardness of 10H and are therefore not only more scratch-, break- and shock-resistant than comparable brand products, but even surpass sapphire glass, which is used in luxury watches and has a hardness of 9H.

Even the edges, the area of the smartphone and protective glass most susceptible to breakage and impact, are specially hardened, rounded by 4-fold polishing and finished with a shock-absorbing edge. This elaborate production process further increases the protection against knocks and bumps and allows a particularly pleasant use of the smartphone. With these features, the protective glass is extremely resistant and guarantees maximum breakage resistance.

Case-friendly

Our Displex protective glass is manufactured to within 5/100 mm of the smartphone contours and therefore fits perfectly on your smartphone. In addition, the protective film is ultra-thin at 3mm. This means that all standard-sized protective cases can be used with the screen protection glass. Thus, your smartphone is optimally protected all around by a combined protection of the Displex Tempered Glass and your favourite case.

Anti Fingerprint

The top layer of our 5-Layer Technology consists of a high-tech plasma coating. The hydrophobic anti-fingerprint coating is grease and dirt repellent, extremely long-lasting and ensures optimal touch and scrolling. This technology not only makes your display look better, it also keeps it clean longer, so it requires less frequent cleaning.

High-tech splinter protection

The high-tech shatter protection integrated in the Real Glass from Displex guarantees absolute safety even if the protective glass breaks. Thanks to the composite material of the second layer in the protective glass, it does not shatter and thus guarantees absolutely safe use. If the worst should come to the worst and the protective glass has absorbed a blow, fall or impact and is broken, the Displex protective glass can be easily pulled off the display in one piece thanks to the integrated high-tech shatter protection.

High-performance adhesive

Once the protective glass has been fitted, the high-performance adhesive ensures optimum adhesion properties and a clear look. The adhesive is adapted to all display coatings of the various manufacturers so that the protective film for mobile phones holds reliably in the long term. The visual appearance is not affected either: despite the screen protection film, you can enjoy gripping videos and photos with maximum transparency and

colour fidelity.

Simple & bubble-free application

With the EASY-ON® Eco Mounting Frame and the accompanying video tutorials, mounting the tempered glass is incredibly quick, easy and precise. In addition the EASY-ON® Eco Mounting Frame is made of premium solid cardboard and is therefore not only sustainable, but also a 100% recyclable. The result is worth seeing: no crooked positioning of the screen protector on the display, no concealed openings for speakers or microphones and certainly no bubbles under the protective glass.

Techninė specifikacija

Features	
Protector type	Privacy screen protector
Brand compatibility	Apple
Compatibility	iPhone 16
Touchscreen compatible	Yes
Protection features	Dirt resistant, Impact resistant, Scratch resistant
Hardness	10H
Light transmission	92%
Durable screen protection	Yes
Screen format	Standard
Installation type	Full adhesive
Country of origin	China
Performance	
Product colour	Black, Transparent
Material	Tempered glass
Dry application	Yes
Bubble-free application	Yes
Easy to apply	Yes
Easy to remove	Yes
Easy to clean	Yes
Rounded edges	Yes
Privacy filtering function	Yes
Anti-reflective	No
Fingerprint resistant	Yes
Frame type	Full frame
Oleophobic coating	Yes
Packaging content	

Quantity per pack	1 pc(s)
Cleaning cloth	Yes
Cleaning kit	Yes
Dry wipe	Yes
Wet wipe	Yes
Installation tray	Yes
Package type	Hanging box

Packaging data

Package width	90 mm
Package depth	12 mm
Package height	195 mm
Package weight	65 g

Technical details

Sustainability certificates	Forest Stewardship Council (FSC)
Sustainability organizations	Plant-for-the-Planet
Warranty period	2 year(s)
Sustainability compliance	Yes

Matmenys ir svoris

Matmenys (l × p × A)	19,00cm × 9,00cm × 2,00cm
Svoris	0,08kg
