Aprašymas

The HP Pro Laminator 600 A4 is the first in this series. The laminator with a high-quality glass surface in regal black design fits on every desk and laminates your important documents in no time. After a warm-up time of just one minute, the powerful laminator is ready for use and laminates at a speed of 600 mm per minute. This corresponds to less than 30 seconds for a DIN A4 sheet. This modern helper convinces with its intuitive touch panel, via which the device is switched on and the required temperature is selected based on the film thickness. A possible film jam is cleared at a touch of the return button and the film is ejected again on the input side.
