Pagrindinės savybės

- ✓ 10/100Base-T(X)
- ✓ LED indicators: Yes
- ✓ Power over Ethernet (PoE)
- ✓ Black

Aprašymas

The MC-POESPLITTER PoE Splitter delivers reliable power and data connectivity to your non-PoE devices. Designed to split a Power over Ethernet (PoE) signal into separate power and data sources, this splitter outputs 5V at 2.4A, making it ideal for powering a wide range of devices such as IP cameras, wireless access points, and other network appliances. Benefit from simplified installations by eliminating the need for separate power supplies. MicroConnect's pioneering innovation ensures a cost-effective and efficient solution for extending your network's reach while adhering to the highest European quality standards. Trust in our 20+ years of expertise to provide seamless integration and dependable performance for all your networking needs.

Techninė specifikacija

Specifications	
Sandėlio grupė	Server, Storage & Network > Network Adapters [+1948][-605]
Features	
Cabling technology	10/100Base-T(X)
Power over Ethernet (PoE)	Yes
Product colour	Black

LED indicators	Yes
----------------	-----

Ports & interfaces

Ethernet LAN (RJ-45) ports	1
----------------------------	---

Weight & dimensions

Weight	50 g
--------	------

Packaging content

Quantity per pack	1 pc(s)
-------------------	---------

Packaging data

Package width	200 mm
---------------	--------

Package depth	174 mm
---------------	--------

Package height	33 mm
----------------	-------

Package weight	60 g
----------------	------

Power

Input voltage	48 V
---------------	------

Output voltage	5 V
----------------	-----

Output current	2.4 A
