Aprašymas

Protect your computer and valuable files against power failures and surges with the AC2300 Line Interactive UPS 600VA with AVR. The UPS is equipped with 6 output sockets. The UPS notifies you with a sound alarm and LED notification during a power failure. It provides you with approximately 10 extra minutes @ 120W load to save your files and to shut down your computer safely. The AC2300 has surge, short circuit, discharge, overcharge and overload protection. The UPS can be mounted on the wall.

Backup power of approx. 10 minutes @ 120W load

The AC2300 Line Interactive UPS 600VA has 6 earthed power sockets to protect your computer and valuable files against power failures and surges. Three output sockets are equipped with a backup battery and surge protection. The other three output sockets have surge protection. The built-in

battery of the Line Interactive UPS allows you to save your files within approximately 10 minutes @ 120W load. The output voltage will remain stable thanks to the AVR function.

Sound and LED notification during power failure

The UPS notifies you with a sound alarm and LED notification during a power failure. The UPS also notifies you when the built-in battery is running out of power. The built-in status LEDs are showing you the status. The AC2300 has surge, short circuit, discharge, overcharge and overload protection.

Easy to connect

It is very easy to connect a computer or another powered device to the AC2300. Just put the power plug of the computer or other device in the power socket of the AC2300. The Line Interactive UPS can be mounted on the wall and has a detachable cable.
