Aprašymas

When it comes to your phone, you want protection and optimal screen visibility. The Anti-Reflective Armor Screen Protector from PanzerGlass® delivers both. Made with 60% recycled glass protecting your screen from everyday accidents.

The new anti-reflective treatment significantly decreases reflection and increases the light transmitted. That means you can view your screen in full sunlight with barely a hint of reflection.

The effect is obtained by means of a multilayer coating with different refractive indexes and a special surface structure that mimics the structure of a moth's eye. The texture provides a soft look, anti-glare properties and very low friction. With light transmission of more than 94% and reflectivity below 0.3%.

FLAWLESS INSTALLATION EVERY TIME. Installation has never been easier with the new **FASTFIT IN-A-BOX system**. Say goodbye to alignment issues and dust intrusion. Simply place your phone face-up, pull the tab, and enjoy a flawless installation every time.

The screen protector is Ultra-Wide Fit, meaning it covers the front surface of your phone to provide superb screen protection and a complete screen view, while still leaving a little room around the edges for a PanzerGlass® case. If you want extra phone protection, combine the screen protector and case with a PanzerGlass® PicturePerfect or Hoops® camera lens protector.
