Aprašymas

We need change. And the award-winning MATRIX screen protector from PanzerGlass® IS change. It is made of 100% recycled plastic. It is designed to prolong the lifetime of your phone. It comes in an FSC™ -certified box. It uses approximately 30%* less paper packaging than previous MATRIX models. It features D30® impact protection, trusted to protect military elite forces. AND it keeps your screen safe from accidental bumps, crushing falls and other hazards of everyday life.

Prolonging the lifetime of our devices, thereby postponing the need to produce new ones, is one way of working toward a more sustainable future. Another is to protect the world’s wildlife and reduce plastic waste in nature. To this end, PanzerGlass® has teamed up with non-profit organization The Perfect World Foundation to support “Project Ocean”. For each MATRIX sold, PanzerGlass® will make a donation to the project, dedicated to protecting marine life, for instance by reducing the amount of plastic and ghost nets that end up in our oceans.

MATRIX comes with an AlignerKit that makes installation a piece of cake (seriously!), and to make it even easier, we’ve included step-by-step instructions as well as a QR code for quick access to our online how-to video. And the look? Well, it is SO featherweight, SO thin and SO clear that you’ll hardly notice it’s there at all ... at least not until you bump your phone screen against a sharp-edged table corner or scratch it on the metal-sharp keys in your pocket. This may not happen, but if it does, you’ll regret not having clicked “add to cart”.

The screen protector is Ultra-Wide Fit, meaning it covers the front surface of your phone to provide superb screen protection and a complete screen view, while still leaving a little room around the edges for a PanzerGlass® case. If you want 360-degree phone protection, combine the screen protector and case with a PanzerGlass® PicturePerfect camera lens protector.

*Estimated by comparing the paper weight with our 2022 packaging.
