Aprašymas

Bumping your watch against mountain rocks on mountain tops? Or hitting it against dripstones in underground caves? No worries! This scratch, shock and drop-resistant screen protector from PanzerGlass® is tougher than tough and keeps your watch safe from the hazards of an adventurous-and-not-so-ordinary-life. The front is made of tempered glass, while the black plastic frame is made with D3O® Bio, the world’s most advanced plant-based protection material, trusted to protect military elite forces and professional athletes alike. It has even been drop-tested under 1 x Military Grade Standard conditions, which means it can withstand several drops from a height of 1.2 meters.

The screen protector protects and prolongs the lifetime of your watch so that one day you can pass it on to someone else who will love it just as much as you do. This is one way of working toward a more sustainable future. Another is to use less packaging: For this screen protector, we have managed to reduce the paper packaging by approximately 20%* compared to previous models. This product comes in a recyclable FSC™ -certified box.

The full-body screen protector covers the entire front as well as the curved sides of your watch, while still providing easy access to all controls. It also has a smudge-free coating that reduces traces of fingerprints and grease. Installation is easy – just click on the screen protector and you’ll never again fear the screeching sound of glass against metal. This may never happen, but if it does, you’ll regret not having clicked “add to cart”.

*Estimated by comparing the paper weight with our 2022 packaging.
