Aprašymas

xTool SafetyPro™ AP2 Max V1.0 Pre-filter

The xTool SafetyPro™ AP2 Max V1.0 Pre-filter is designed to effectively capture larger dust particles and contaminants, thereby reducing the load on the subsequent filtration stages in the air purifier. It serves as the first line of defense in the filtration system, extending the service life of the other filters and helping to maintain the device's high performance. The filter has a service life of up to 200 hours of operation, which means less frequent replacement and lower operating costs. It is a practical solution for users of laser equipment who want to maintain filtration efficiency over the long term.

Longer Service Life of the Entire Filtration System

Regular replacement of the xTool SafetyPro™ AP2 Max V1.0 pre-filter helps maintain optimal airflow and supports the efficient operation of the entire filtration system. The filter traps larger contaminants, protecting higher-efficiency filters from premature wear. As a result, the entire filter set can operate longer and more efficiently, and the device maintains high performance during daily use.

Manufacturer	XTool
Model	AP2 Max V1.0
Product	xTool SafetyPro™ AP2 Max V1.0 Pre-Filter
Intended Use	xTool SafetyPro™ AP2 Max Air Purifier
Filter Type	Pre-Filter
Service Life	Up to 200 hours of operation
Application	First stage of the filtration system
