Aprašymas

SIMTASK FARMSTICK is the joystick designed for controlling farming and heavy machinery, developed based on Thrustmaster's know-how in flight simulation.

With its 3 directional axes including 2 with H.E.A.R.T (HallEffect AccuRate Technology) magnetic sensors, you can precisely control forklifts, cranes and all other types of farming and construction machinery. Featuring a multifunctional stick, hand throttle, and 33 configurable buttons in total,

FarmStick provides a super-versatile experience.

Plug & Play in Farming Simulator 25, its controls are automatically assigned to each vehicle for intuitive control. Its design was directly inspired by the interiors of high-end modern tractors and farming equipment, for greater immersion and realism. SIMTASK FARMSTICK is compatible with PS5 and PC (Windows 11/10), and pairs perfectly with a SimTask Steering Kit accompanied by a T128 or T248 racing wheel (all sold separately), for a full-featured and immersive driver's cabin.

Take full control, master every task!

Take full control of any piece of farming equipment or heavy machinery with SimTask FarmStick — Thrustmaster's versatile and precise joystick, featuring 3 directional axes, a multifunction stick, a hand throttle and an all-in-one control panel.
