Aprašymas

CENTRALISED CABLE MANAGEMENT

The Case Fan Hub comes equipped with adhesive pads and magnetic strips, which lets you place it anywhere in the case. It connects to your motherboard with only one cable and powered via SATA. This way, you can do without many additional cables and position it freely in the hidden part of the case.

SYNCHRONOUS FAN CONTROL

Your set PWM signal is passed on synchronously to all fans connected to the Case Fan Hub. The RPM of the first fan slot will be read out and returned to your system.

EXPAND YOUR VENTILATION

Even if you don't have enough fan headers on your mainboard, the case fan hub expands your system by 9 more case fan slots.

Case_Fan_Hub_F03

EXTERNAL POWER SUPPLY

The fans are powered directly from your power supply via SATA Power. As a result, there is no voltage loss at the fan speed and smooth, smooth operation is made possible.

Techninė specifikacija

Specifications	
Sandėlio grupė	Aircooling Fan Accessories Power Adapters [+0][-0]
Features	
Product colour	Black
Power connector	SATA
Weight & dimensions	
Width	55.6 mm
Depth	14.3 mm
Height	86.3 mm
Weight	50 g
Packaging data	
Package width	55.6 mm
Package depth	14.3 mm
Package height	86.3 mm
Package weight	75 g
Logistics data	
Country of origin	Hong Kong
Harmonized System (HS) code	84733080
Other features	
Cooling agent	Air
Matmenys ir svoris	
Matmenys (I × P × A)	9,00cm × 7,00cm × 2,00cm
Svoris	0,07kg
