Pagrindinės savybės

- ✓ Classic Design
- ✓ Authentic Feel
- ✓ Advanced Material
- ✓ Extreme Durability
- ✓ ALPS 8-way Switch
- ✓ 12 Input Signals
- ✓ Broad Compatibility

Aprašymas

Classic Design

Inspired by traditional aircraft controls, the MOZA MA3X Side Stick features additional buttons to enhance your simulation experience and provide more control options.

Authentic Feel

Achieve a genuine aircraft experience with the multi-layer spray and UV treatment applied to the MA3X Side Stick. This sophisticated finishing process replicates the smooth, tactile feel of real aircraft resin materials, making each interaction with the side stick as realistic as possible.

Advanced Material

Crafted from ultra-rigid composite material, the MOZA MA3X Side Stick is designed to withstand rigorous use while maintaining a lightweight profile. The advanced material offers exceptional abrasion resistance and can handle loads of up to 30 kg, ensuring reliable and consistent performance even in the most demanding conditions.

Extreme Durability

Engineered for robustness, the MOZA MA3X Side Stick is capable of withstanding impacts of up to 30 kg. Additionally, the switches are rigorously tested to endure 100,000 cycles of use, maintaining their functionality and performance throughout extensive use.

ALPS Switches

For top-notch reliability and performance, the MOZA MA3X Side Stick is equipped with high-quality ALPS switches. Renowned for their durability and precision, ALPS switches ensure that every input is accurately registered, contributing to a dependable and responsive flight experience.

Enhanced Button Layout

Departing from classic models with a minimal button setup, the MA3X Side Stick features 4 physical buttons, which expand to provide up to 12 distinct input signals. This increase in functionality allows for more precise control and a more immersive simulation experience.

Broad Compatibility

Designed for seamless integration, the MOZA MA3X Side Stick is compatible with most third-party bases. The plug-and-play functionality means you can easily connect it to your existing setup without any hassle.

Techninė specifikacija

Savybės	
Gaminio tipas	Vairalazdė
Produkto spalva	Juoda
Medžiaga	Akrilonitrilo butadieno stirenas (ABS), Kompozuoti
Svoris ir matmenys	
Plotis	99 mm
Ilgis	132 mm
Aukštis	213,5 mm
Svoris	220 g
Energijos valdymas	
Iėjimo įtampa	3.3 V
Ivesties srovė	5 A
