Pagrindinės savybės

- ✓ **WEBCAM WITH REMOTE CONTROL:** This HD 1080p webcam features a powerful HD image sensor, professional lens and WDR, AI auto-tracking and reliable hardware. Now with remote control for full convenience
- ✓ **CLEAR & CRISP:** Dual microphones with noise reduction and best stereo audio sound ensure clear and natural sound recording even in noisy environments. Best performance with Full HD output and up to 30 fps
- ✓ **ALWAYS ON THE MOVE:** Control your video calls remotely to stay in control away from your desk: Turn webcam transmission on/off, adjust exposure, mirror image, align camera
- ✓ **TOUCH ALLOWED:** The automatic tracking function can be switched off simply by touching the switch on the surface. The function can be reactivated or manually adjusted at any time by remote control
- ✓ **ARTIFICIAL INTELLIGENCE:** The camera precisely detects your position and automatically follows your direction of movement so you are always in view. The camera follows (within 3 m) even during video calls and live streams

Aprašymas

Webcam with remote control

A webcam with remote control is ideal for use in lecture halls, classrooms and for larger video conferences with several people. It can be controlled at the touch of a button to bring different people into view or easily display information on a whiteboard.

Adjustable thanks to AI and more

The IB-CAM502-HD fits almost any monitor thanks to variable joints. The rubber contact surfaces provide a secure grip without damaging the surface. The optional AI auto-tracking function keeps you in focus even during lively presentations with a room-filling presence.

Always in the picture

The HD camera delivers up to 1080p resolution and 30 frames/sec. Intelligent object tracking and up to 350° rotation bring a high level of comfort to video presentations. The sophisticated Wide Dynamic Range (WDR) function ensures a balanced representation of particularly bright and dark areas of the environment.

Techninė specifikacija
