179.99€

Carlinkit CPC200-Tbox UHD Carplay/Android Wireless Adapter (White)

The Carlinkit CPC200-Tbox UHD Wireless Adapter is a practical device that allows you to use CarPlay and Android Auto functions in your car without any problems. Equipped with the advanced Android 13 system and a powerful Qualcomm SDM660 processor, it ensures smooth operation and quick response to commands. It also allows you to conveniently install selected applications and supports image and sound transmission via the HDMI port (HDMI, High-Definition Multimedia Interface, a high-resolution digital audio-video connector).

Easy installation and versatile ports

The adapter is very easy to install – thanks to the Plug&Play; system, all you need to do is plug it into your car. Equipped with a variety of ports, such as USB-C (USB-C, Universal Serial Bus type C, a universal connector for data transfer and power supply), an SD card slot, and HDMI, it allows you to connect multiple devices and accessories. This allows you to enjoy high-quality sound and images in your car.

Compatibility and safety

The Carlinkit CPC200-Tbox UHD is compatible with a wide range of smartphones, from iPhone 6 and newer (iOS 10.0 and above) to Android 11.0 and newer. With support for Wi-Fi (Wi-Fi, Wireless Fidelity, wireless data transmission technology; 802.11 a/b/g/n/ac, 2.4 GHz + 5 GHz) and Bluetooth 5.0 (Bluetooth, wireless technology for short-range data transmission), you can also transfer data wirelessly and use apps. The adapter is made of durable ABS material, which ensures its durability and resistance to damage.

Features and benefits

The adapter allows you to use CarPlay and Android Auto without changing your driving habits. The built-in Android 13.0 system allows you to download and install apps directly from the Google Play Store, and thanks to adaptive resolution, the image is always optimally adjusted to the screen. Carlinkit also supports global positioning systems (GPS, Global Positioning System), GLONASS (GLONASS, Global Navigation Satellite System – Russian satellite system) and BeiDou (BeiDou Navigation Satellite System, Chinese satellite navigation system), ensuring precise navigation.
