44.99€

Carlinkit AIR X1 Carplay/Android Auto wireless adapter

Carlinkit AIR X1 is a state-of-the-art wireless adapter that takes the use of CarPlay and Android Auto to the next level. With enhanced technologies such as dual-channel signal switching and advanced app synchronization features, it ensures smooth and reliable operation. Let your daily travels become more comfortable and safer.

Stable and fast wireless connection

Carlinkit AIR X1 uses an advanced 2.4GHz + 5.8GHz wireless module that minimizes latency and prevents interference. No matter the region or conditions, the connection remains stable and reliable, eliminating the risk of interruptions. The high-speed, wireless CarPlay and Android Auto feature allows instant synchronization with your phone, which means full control over navigation,

music, calls and apps - all from the car screen.

Advanced technology and low power consumption

The adapter is equipped with a state-of-the-art automotive-grade chip for high performance and low power consumption. The use of technology known from the top model CPC200-2AIR guarantees stable and smooth operation in all conditions. With optimized power management, the device generates less heat, and improved temperature dissipation promotes long-lasting and reliable operation. The chip meets the stringent safety and reliability standards used in the automotive industry, making the adapter an excellent choice for long trips, ensuring comfort and reliability at the highest level.

Intuitive operation and full compatibility

Connecting the Carlinkit AIR X1 adapter is child's play. Simply insert it into the car's USB port, launch CarPlay or Android Auto on the screen, and then pair the device with your phone via Bluetooth. The adapter automatically recognizes your vehicle's original features, so you don't have to change your habits behind the wheel - you operate it using the steering wheel buttons, touchscreen or rotary controller.

Enhanced functionality and online updates

Carlinkit AIR X1 not only retains the features of the original system, but also allows you to download additional CarPlay and Android Auto compatible apps. Enjoy access to online navigation, music, calls or voice assistant. What's more, the adapter supports remote updates - simply access the specified address using the browser on your phone to easily update the software.
