

## VIOFO A229 PLUS 3CH 2K + 1080p WiFi, GPS

Modelis: A229 Plus 3CH

Gamintojas: VIOFO

EAN: 6972147073275

Prekės kodas: 70256

# 214.99€

### VIOFO A229 PLUS 3CH 2K + 2K + 1080p WiFi, GPS video recorder.

VIOFO A229 PLUS 3CH video recorder is an advanced device that combines innovative technologies with reliable functionality. With three cameras recording in 2K + 2K + 1080p resolution and the use of the latest Sony STARVIS 2 sensors, the device provides excellent recording quality both during the day and at night. The compact design and intuitive operation make it ideal for those looking for a reliable tool for monitoring situations on the road.

### Video recording in 2K quality

The A229 PLUS 3CH is equipped with a front and rear camera recording in 2K Quad HD and an internal camera in 1080p. Thanks to HDR technology, images are rich in detail and clear regardless of lighting conditions. The use of Sony STARVIS 2 sensors in the outdoor cameras allows the camera to capture details such as license plates and faces even in difficult lighting conditions.

## **Innovative Sony STARVIS 2 sensors**

The video recorder is the first on the market to use two Sony STARVIS 2 IMX675 sensors, which offer 2.5 times wider dynamic range and higher light sensitivity compared to their predecessors. As a result, recordings feature minimal noise and greater detail both during the day and at night. The rear camera also uses this sensor, providing exceptional image quality from the rear perspective of the vehicle.

## **Vehicle interior under control**

An interior camera with a Sony STARVIS IMX307 sensor and HDR technology makes it possible to capture the vehicle interior without overexposure. Built-in infrared LEDs automatically turn on in low-light conditions, allowing you to record clear images in black and white, even in total darkness.

## **Advanced connectivity and convenience**

Thanks to the 5 GHz Wi-Fi module, it's possible to quickly transfer recordings to your smartphone for improved viewing and sharing. In addition, the USB-C wired connection option allows for lightning-fast downloads of up to 20 MB/s, which is especially useful for users of the latest cell phone models.

## **High-precision GPS**

The video recorder is equipped with an advanced GPS module that supports GPS, BEIDOU, GALILEO and GLONASS. This allows precise tracking of the vehicle's route, and location, speed and time data can be easily reproduced in a dedicated VIOFO application or on a computer.

## **Smart capabilities**

Auto Event Detection and loop recording ensure that key moments are saved and the oldest files are overwritten with new ones. A built-in G-sensor automatically locks recordings in the event of a collision, making it easier to play them back later and minimizing the risk of accidentally deleting files.

## **Ergonomics and thoughtful design**

Compact dimensions and a 2.4-inch HD display ensure ease of installation and operation. The cameras can be mounted in a way that does not obstruct visibility, allowing discreet and convenient video recording from any angle. The A229 PLUS 3CH is not just a video recorder, but a complete protection system for your vehicle. Take care of your safety and the safety of other road users with VIOFO!

## Included

- windshield stickers 2x
- trim removal tool
- cable for the front camera (6 m)
- front camera
- rear camera
- inner camera
- cable for internal camera (1 m)
- data cable type-C
- car charger
- user manual
