Pagrindinės savybės

- ✓ Show true Mac colors on a 32" BenQ MA320UG 4K 120Hz display
- ✓ Fluid motion for timelines, video editing, and detailed creation
- ✓ Perfectly tuned P3 color to match every generation of MacBook
- ✓ Sync brightness and volume instantly between Mac and monitor
- ✓ Powerful Thunderbolt 4 hub connects and charges all your devices

Aprašymas

Show Mac Colors, in Fluid Motion

Bring the smoothness you love on your MacBook to a 32-inch monitor to navigate timelines, play and edit videos, and refine details with fluid and immediate response.

Colors Not Matching? Plug in and Get the Right Colors

Most external monitors display colors differently from MacBook computers. As the best color-matching monitors for all MacBook generations, BenQ MA series delivers a wide P3 color gamut and BenQ's Mac color-tuning technology- making the MA Series the best monitors for MacBook users.

Sync with MacBook Control

Now you can synchronize controls between your MacBook computer and monitor with simple keystrokes, just like you would on your MacBook Pro

and MacBook Air. Simply press the brightness or volume key, and both displays will adjust simultaneously.

Get it Done with Display Pilot 2

Experience Mac-like simplified settings with BenQ Display Pilot 2 software.

Nano Gloss Panel

Mac Colors, in Full Clarity

Love the way your Mac looks? You'll see it here, all in stunning detail. The Nano Gloss surface brings crystal-clear depth, true blacks, and brilliant highlights, revealing every nuance with natural contrast. Even from the side, colors stay accurate and lifelike, so every angle feels unmistakably Mac.

A Powerful Hub Connects All

One cable brings everything together, display, power, and connection. You can keep your MacBook, Mac Mini, Mac Studio, iPad, iPhone, and more charged and ready.

*USB-IF certified USB-C ports ensure safe charging and reliable connectivity without risking damage to your Apple devices.

Daisy Chain

Expand Your Vision

See more of your timeline, your creative space, your world. Daisy Chain spans your work across dual 4K displays, delivering smooth 120Hz performance on both screens for a responsive, unified workflow.

*Since Apple Silicon M1 and M2 chips do not support multiple monitors natively, Daisy Chain cannot be applied on M1 and M2-based devices. Daisy Chain can be applied on Apple Silicon Pro, Max, and Ultra-based devices.

Built-in Smart KVM

One Flow. Across macOS and Windows.

Move between macOS® and Windows® without losing your rhythm.

No reconnecting. No rethinking. Just stay in your flow as your MacBook and PC work like one system.

One keyboard. One mouse. One uninterrupted workflow.

We Adjust Easily. You View Comfortably.

No more bad posture. BenQ's best monitors for MacBook Pro and MacBook Air go beyond screen limitations, offering greater freedom with multiple angles and height adjustments for an improved viewing experience.

Techninė specifikacija

Specifications	
Sandėlio grupė	> Monitore > Monitore (TFT, LCD, LED) [+1779][-139]
Display	
Display diagonal	80 cm (31.5")
Display resolution	3840 x 2160 pixels
Native aspect ratio	16:9
Touchscreen	No
HD type	4K Ultra HD
Panel type	IPS

Response time	5 ms
Screen shape	Flat
Contrast ratio (typical)	2000:1
Maximum refresh rate	120 Hz
Display number of colours	1.07 billion colours
LED backlight	Yes
Display brightness (peak)	450 cd/m²
Display brightness (typical)	450 cd/m²
Display surface	Gloss
Viewing angle, horizontal	178°
Viewing angle, vertical	178°
Pixel density	140 ppi
Display diagonal (metric)	80 cm
