## Pagrindinės savybės

- ✓ Windows 11 Home 64-bit
- ✓ AMD Ryzen 3 7320U (2.4GHz)
- ✓ 39.6 cm (15.6") Full HD 1920 x 1080 IPS-Level
- ✓ 8GB LPDDR5-SDRAM & 512GB SSD

## Aprašymas

### Be productive as you Go

It's light. It's compact. It's the ASUS Vivobook Go 15 OLED, and it's designed to make you productive and keep you entertained wherever you go! With its 180° lay-flat hinge, physical webcam shield and loads of thoughtful design features — including a gorgeous OLED display — Vivobook Go 15 OLED is the laptop that sets you free!

### World-leading 15.6" OLED display

- 16:9 aspect ratio, 1920 by 1080 resolution,
- 84% screen-to-body ratio, 100% DCI-P3,

- 500 nits peak brightness

## Display

### Clearly superior display

Vivobook Go 15 OLED has stunningly crisp and clear visuals, with a reduced risk of eye strain during long viewing sessions thanks to its TÜV Rheinland eye-care certified OLED panel. The NanoEdge slim-bezel design gives you more screen space for multitasking and immersive viewing.

## Performance

### Missions accomplished!

Vivobook Go 15 OLED is powered by up to an AMD Ryzen™ 5 processor, 16 GB of speedy DDR5 memory and 512 GB of storage to help you complete all your productivity missions.

## Battery

### Fast charging

Vivobook Go 15 OLED supports fast charging, so you can charge a low battery to 60% in as little as 49 minutes<sup>4</sup>. You'll be up and running quicker than ever!

## Audio

### Outstanding audio to hear the world

Vivobook Go 15 OLED provides incredibly powerful, crystal-clear sound with ASUS SonicMaster and DTS Audio Processing. The combination of hardware and software boost the volume, and remove noise to improve audio clarity so you get truly immersive sound.

## Design Highlight

### Choose your color

Vivobook Go 15 OLED is available in three colors: the never-out-of-fashion Mixed Black and Cool Silver, and the brand-new cozy Grey Green. While matching your style, Vivobook Go 15 OLED is also slim enough to slip into your bag, and light enough for easy one-handed carrying.

## 180° Hinge

### Wide open for sharing

Vivobook Go 15 OLED features a precision-engineered, 180° lay-flat hinge that makes it easy to share content or collaborate with others.

## ErgoSense

### ASUS ErgoSense keyboard, comfortable typing experience

Your comfort is our highest priority. That's why the ASUS ErgoSense keyboard has an incredibly satisfying feel, with the optimum key bounce and travel calculated with fine-tuned precision. Experience the ErgoSense keyboard and you'll soon find yourself cruising effortlessly through your work.

### Full-sized keyboard 19.05 mm

The full-size 19.05 mm key pitch is the same as a desktop keyboard so you can whizz through your work with superb typing comfort and accuracy.

### Dished key caps 0.2 mm

The 0.2 mm key-cap dish is designed to match the shape of your fingertips so your fingers are gently guided to the ideal contact point with the keys.

### Long key travel 1.4 mm

Good tactile feedback is important to let you know that your key press has been registered. The long 1.4 mm key travel lets you type without having to use too much force. And underneath the key, there's a rubber dome crafted by keyboard experts here at ASUS. It guarantees your click force is met with just the right tactile bump you need for a nice grip.

### 0.1 mm key cap relief

When fully depressed, the keys on the ErgoSense keyboard don't sink below the level of the keyboard deck. The key caps remain at least 0.1 mm above the chassis surface, providing you with a comfortable, ergonomic typing experience.

### Enhanced number key layout

Blitz through data-crunching tasks with the enhanced number key layout! This features hotkeys for the calculator, CE and +/- functions, along with increased spacing to match the full-size key pitch for more intuitive number entry.

### Optimal click ratio: Engineered to perfection

The feel of a keyboard depends on the crucial ratio between the peak force (also known as the actuation force) and the contact force. Peak force occurs when you press down on the key and reach the maximum force that the key's underlying rubber dome can withstand without deflecting. Contact force occurs when the bottom of the key touches the circuit board to trigger an electronic signal, which in turn generates the action appropriate to the key. To achieve the most natural feel for a keyboard, ASUS keyboard experts have scientifically determined that the optimal ergonomic click ratio for a key is between 45-60%. These forces are precisely measured and tuned using the ASUS-designed rubber domes beneath the keys.

### User Experience

#### User friendly design

#### Unlock with one touch

Accessing your device has never been easier or more secure! With the built-in fingerprint sensor<sup>5</sup> in the touchpad and Windows Hello, there's no need to type in your password every time — all you need is a single touch!

#### Physical webcam privacy shield

Vivobook Go 15 OLED takes your privacy and security seriously. There's an integrated privacy shield that slides over the webcam for instant privacy, shielding you from prying eyes and disturbances.

### Connectivity

#### Perfect in every detail

Vivobook Go 15 OLED keeps you fully connected with its comprehensive I/O ports. There are a USB-C® 3.2 Gen 1 port, a USB 3.2 Gen 1 Type-A ports, a USB 2.0 port, HDMI® output and an audio combo jack — so it's easy to connect all your existing peripherals, displays and projectors.

### WiFi

#### Fine-tuned with ASUS WiFi Master technology

Vivobook Go 15 OLED offers a comprehensive range of wireless connectivity. WiFi 6E6 (802.11ax) allows you to load online content in the blink of an eye.

### Military-grade

#### World's most strictly tested US military-grade laptop durability

ASUS laptops<sup>7</sup> are engineered with extraordinary toughness meet the exacting US MIL-STD-810H military-grade standard, undergoing 12 rigorous test methods and 26 punishing test procedures — exceeding industry standards. The upshot is a range of products that are renowned for reliability and durability. These factors also inherently benefit longevity and thus sustainability, so you can work, travel or relax with the confidence that your ASUS laptop is ready for the real world — today, and long into the future.

### AI Noise Cancellation

#### Next-level AI noise-canceling audio technology

To provide exceptional remote-working and video-conferencing experiences, features ASUS AI Noise-Canceling Technology that employs machine learning in order to isolate unwanted noise from human speech. This technology helps to filter out ambient noise for optimum group conference-call quality. The ASUS AI Noise-Canceling Microphone feature in the MyASUS app can filter out ambient noise — so you'll hear what everyone else is saying.

Try the demo to experience the amazing difference that AI Noise-Canceling Technology can make in different environments.

Press play to experience ASUS AI Noise-Canceling Technology

Turn on your device audio to hear the difference.

## Conference Call

### Conference calls with more possibilities

Conference calls can be single-presenter or multi-presenter, gathered around a single laptop with voices coming from various directions. With the upgraded system enabled via the MyASUS app, it detects and optimizes audio from either one direction or from all directions — ensuring top conference call audio quality.

### Single presenter conference call

Single-presenter conference call mode can filter out noise and other voices, and ensures only the voice in front of laptop can be heard. When you switch on the Target Speaker Tracking mode it can even target and track new talkers within a 180° arc, making the feature ideal for recording large groups as well as for individuals.

### Multi-presenter conference call

Multi-presenter conference call mode filters out ambient noise whilst identifying multiple voices from all directions and distances, so all voices can be heard more clearly.

## 3DNR

### Standout webcam effect - ASUS 3DNR

ASUS 3D Noise Reduction (3DNR) Technology significantly upgrades the webcam image clarity for clearer conference calls.

## Software

### Truly personalized workflow

MyASUS hosts a collection of handy ASUS apps and tools that help you get more out of your laptop. GlideX is a powerful cross-device screen-sharing solution. ScreenXpert helps you to manage app windows across displays connected to your ASUS PC, giving you full control of your workflow!

## MyASUS

### MyASUS

MyASUS provides easy access to ASUS apps that are designed to help you maintain your system, update your software, optimize your PC's performance, and contact ASUS for after-sales support.

## GlideX

### GlideX

GlideX is a cross-device screen-sharing solution that uses wired or wireless connections to give you a bigger and better space for work and play. GlideX optimizes your workflow in the blink of an eye!

## ScreenXpert

### ScreenXpert for ASUS PCs

ScreenXpert for ASUS PCs — which you can download from Microsoft Store or find in your PC's Start menu — helps you to manage app windows across displays connected to your ASUS PC and puts you in full control of your workflow!
