Aprašymas

The Lanberg SC01-4504-10B is a rack-mountable chassis designed to cater to a variety of needs. Featuring a robust SPCC steel construction, this cabinet ensures durability and compliance with RoHS and EMC standards, making it a reliable choice for your server or networking equipment. It includes built-in devices such as an LED panel and a USB 2.0 hub for convenience, along with a front panel lock and a removable dust filter that helps maintain the cleanliness of your system.

With a total of 6 internal bays, including 3 front-accessible bays, users can easily expand their hardware capacity. The chassis supports multiple motherboard types, including ATX, microATX, and Mini-ATX form factors, providing flexibility for various server configurations. The efficient cooling system is designed with fans located in the front and rear for optimal air circulation, ensuring your system runs within a safe temperature range.
