Aprašymas

Peace of mind that comes with full equipment compatibility and reliability of a leader

Provides pure sine wave output which is recommended by server manufacturers using active power factor corrected (PFC) power supplies. Safety agency tested and approved means that you can deploy Smart-UPS with confidence that they meet or exceed the industry's most rigorous standards.

Smarter productivity with ability to tailor to your specific application needs

Configure the UPS locally

Intuitive LCD interface provides clear information with the ability to configure the UPS locally with easy to use navigation keys.

Application specific settings

Over 15 different programmable settings including switched outlet group control allow for application specific settings, thresholds and notifications.

Avoids costly power problems by keeping your IT equipment and data safe and available

Protects from damaging surges

Network grade power conditioning protects from damaging surges and disruptive noise.

Boosts low input voltage up to 30%

Solid state automatic voltage regulation boosts low input voltage up to 30% and trims high voltage up to 12% without battery operation.

Outages or gracefully shutdown systems

Reliable battery back-up capacity to power through outages or gracefully shutdown systems

Low operating and maintenance costs with high efficiency, proven reliability and intelligent battery management

Achieves efficiencies over 97%

Patented green operating mode achieves efficiencies over 97%. Smart-ups was the first network UPS to be Energy Star certified.

Maximizes battery performance

Intelligent battery management, pioneered by APC, maximizes battery performance and life through intelligent, precision temperature compensated charging.

Battery reliability

Dynamic battery replacement date indicator and automatic self tests insure battery reliability and warn in advance of needing replacement.

Hot-swappable battery modules

Convenient, easy to connect, hot-swappable battery modules provide battery replacement without powering down.

Over 25 million units sold

Designed and manufactured by APC for over 23 years, Smart-UPS is the world's most trusted network UPS with over 25 million units sold.

Save time with easy and convenient remote accessibility

Optional ethernet

Network manageable via serial, USB or optional ethernet.

Safe operating system shutdown

Includes Powerchute® Business Edition Software for convenient monitoring and control, safe operating system shutdown and innovative energy management capabilities.

Additional Product Notes

1. UPS topology: Line-Interactive
2. Output power capacity: 1500 VA
3. Output power: 1000 W. AC
