Aprašymas

The **TP-Link MC210CS** is a high-performance **fiber converter** designed to enhance network connectivity with exceptional efficiency. Supporting a maximum data transfer rate of **1000 Mbit/s**, this device ensures seamless data flow across various network segments. It complies with multiple networking standards, including **IEEE 802.3ab**, **IEEE 802.3i**, **IEEE 802.3u**, and **IEEE 802.3z**, making it a versatile solution for integration into diverse network infrastructures.

Equipped with a **Gigabit Ethernet interface**, the MC210CS is compatible with both **1000Base-LX** and **1000Base-T** network technologies, allowing it to work seamlessly with **Cat5** and **Cat5e** cabling. The device features an **SC fiber optic connector** and operates using a single-mode fiber structure, enabling a maximum transfer distance of up to **15000 meters** at a wavelength of **1310 nm**. This capability facilitates long-range data transmission without any signal degradation, setting it apart from many competitors in the market.

Housed in a compact black casing, the **TP-Link MC210CS** boasts low power consumption, with a maximum of **1.8 W**, ensuring energy efficiency while maintaining stable and secure wired connectivity. This makes it an ideal choice for extending network reach in various professional settings, where reliability and performance are paramount. With its advanced technology and robust design, the MC210CS stands out as a reliable solution for enhancing network infrastructure.
