Aprašymas

hAP ac

The hAP ac is our most universal home or office wireless device. It is a dual band device with Gigabit ports that allow the full advantages of 802.11ac technology speed, while maintaining compatibility with legacy devices in 2 GHz 802.11 b/g/n and 5 GHz a/n modes.

The omnidirectional antennas allow to mount the hAP ac in any location, and the high power transmitter will ensure good coverage for the mobile devices in your home, office or public location.

Other helpful features include a USB port for attaching extra storage or a 3G/4G modem, PoE output on the last Ethernet port, to power other RouterBOARD devices without needing an extra power adapter and a SFP cage, for connecting active or passive optical network modules.

Additional Product Notes

1. Triple-chain wireless 2.4 GHz
2. Triple-chain wireless 5 GHz
3. 720 MHz CPU
4. 128 MB of RAM
5. Five x Gigabit Ethernet ports
6. SFP cage
7. Passive PoE output on port 5
8. USB port for 3G/4G modem
