Aprašymas

The **MikroTik RouterBOARD R11E-2HnD** is a high-performance **MiniPCI-e** wireless card designed for seamless connectivity in various applications. With its compact and **low-profile design**, this product is ideal for integration into a wide range of devices, ensuring that you can maximize space without compromising on performance. The **R11E-2HnD** is specifically engineered to deliver reliable wireless communication, making it a perfect choice for both home and professional environments.

Manufactured by **MikroTik**, a leader in the networking industry, the **R11E-2HnD** features advanced technology that supports **2.4 GHz** wireless frequencies. This model is equipped with a powerful **2.4 GHz 802.11b/g/n** radio, providing excellent range and speed for your network needs. The **MMCX** connector allows for easy antenna attachment, enhancing the overall performance and flexibility of your wireless setup.

One of the standout features of the **R11E-2HnD** is its ability to operate in various environments, making it suitable for both indoor and outdoor applications. This versatility is complemented by its robust build quality, ensuring durability and longevity. The product is designed to handle demanding tasks, making it an excellent choice for users who require a dependable wireless solution.

In summary, the **MikroTik RouterBOARD R11E-2HnD** is a top-tier choice for anyone looking to enhance their wireless capabilities. With its impressive technical specifications and the trusted name of **MikroTik** behind it, this **MiniPCI-e** card is sure to meet the needs of both casual users and professionals alike. Experience the difference that high-quality networking equipment can make in your connectivity solutions.
