Aprašymas

The **EAP115** by **TP-LINK** is a high-performance ceiling mount Wi-Fi access point designed for efficient wireless connectivity. With a maximum data transfer rate of **300 Mbit/s** on the **2.4 GHz** band, this device ensures reliable and fast internet access for various applications. It supports Ethernet LAN data rates of **10, 100, and 1000 Mbit/s**, providing versatile connectivity options suitable for both home and office environments. The sleek white design allows for seamless integration into any interior, whether mounted on the ceiling or wall.

Security is a top priority with the EAP115, which is equipped with multiple security algorithms including **64-bit WEP, 128-bit WEP, 152-bit WEP, HTTPS, SNMP, SSH, WPA, WPA-PSK, WPA2-Enterprise, and WPA2-PSK**. This comprehensive suite of security features ensures the integrity of your network and protects sensitive data from unauthorized access. Additionally, the access point includes a service set identifier (**SSID**) feature that allows users to hide SSIDs, further enhancing network security.

Operating efficiently with an output voltage of **9 V** and a current of **0.6 A**, the EAP115 typically consumes only **2.8 W** of power, making it an energy-efficient choice for continuous operation. The frequency range of **2.4 to 2.4835 GHz** accommodates various operational environments, ensuring optimal performance in diverse settings. Certified by **CE, FCC, and RoHS**, this access point meets regulatory standards, providing peace of mind for users. The EAP115 stands out in its class with its robust security features and efficient performance, making it an ideal solution for reliable wireless connectivity.
