Aprašymas

The **RBCAP2ND MikroTik cAP-2nD** is a versatile and efficient wireless access point designed for seamless connectivity in various environments. Operating on the **2.4 GHz** frequency, this device ensures reliable performance for both home and office use. With its sleek **white color**, it blends effortlessly into any setting, making it an ideal choice for those seeking both functionality and aesthetics.

Equipped with a data transfer speed of **10/100 Mbit/s** through Ethernet LAN, the **cAP-2nD** provides a stable and fast connection for multiple devices. This capability is essential for businesses and individuals who require consistent internet access for tasks such as streaming, gaming, or video conferencing. The device's support for **Power over Ethernet (PoE)** simplifies installation by allowing power and data to be transmitted through a single cable.

With a maximum power consumption of only **4 W**, the **RBCAP2ND MikroTik** is energy-efficient, making it a cost-effective solution for long-term use. This low power requirement does not compromise its performance, ensuring that users can enjoy high-speed internet without incurring high energy costs. The **cAP-2nD** is designed to meet the demands of modern connectivity while being mindful of energy consumption.

As part of MikroTik's renowned product line, the **cAP-2nD** stands out for its reliability and ease of use. Whether you are setting up a new network or upgrading an existing one, this access point is a dependable choice that delivers excellent performance. Its technical specifications and user-friendly design make it suitable for a wide range of applications, from small businesses to larger enterprises.
