Aprašymas

The **TP-LINK TL-SM311LM** is a high-performance **MiniGBIC module** designed for seamless fiber optic connectivity. This **SFP transceiver** supports a maximum data transfer rate of **1250 Mbit/s**, ensuring efficient and reliable network performance. Its compatibility with standard **SFP slots** makes it a versatile choice for various networking equipment, enhancing the flexibility of your network setup.

Engineered to meet rigorous standards, the **TP-LINK TL-SM311LM** holds both **FCC** and **CE certifications**, guaranteeing compliance with international safety and operational guidelines. Operating on a **3.3 V input voltage**, this module is designed for low power consumption, making it an environmentally friendly option for high-speed data transmission. The use of an **LC (UPC) connector** allows for compatibility with both **50/125** and **62.5/125 μm fiber types**, providing flexibility in fiber optic installations.

With an effective transmission range of up to **550 meters**, the **TP-LINK TL-SM311LM** is ideal for extended network setups across larger spaces, ensuring that your data travels efficiently without loss of quality. This compact module, measuring **55.4 mm** in width, **13.7 mm** in depth, and **12.9 mm** in height, is easy to install in tight spaces, making it a practical choice for any networking environment. Trust in the quality and performance of **TP-LINK** to elevate your network capabilities.
