Aprašymas

The **TP-LINK EAP110** is a high-performance **Wi-Fi access point** designed to deliver efficient wireless connectivity with a maximum data transfer rate of **300 Mbit/s** on the **2.4 GHz band**. This device supports Ethernet LAN data rates of **10/100 Mbit/s**, ensuring fast and stable network connections for various applications. With its robust security features, including **WPA2-Enterprise**, **HTTPS**, and multiple **SSID** support, the EAP110 provides comprehensive protection and enhanced network management flexibility, making it an ideal choice for both home and business environments.

Operating within a frequency range of **2.4 - 2.4835 GHz**, the EAP110 complies with **IEEE standards** 802.11b, 802.11g, 802.11n, and 802.1x, ensuring compatibility with a wide range of devices. The unit features an internal, omni-directional antenna with a maximum gain of **4 dBi**, optimizing signal coverage and strength for reliable connectivity. Its discreet white design allows for seamless integration into various settings, whether mounted on ceilings or walls, making it a versatile solution for enhancing your wireless network.

With a typical power consumption of **2.8 W** and an AC input voltage of **24 V**, the TP-LINK EAP110 is energy-efficient while maintaining high performance. The device is equipped with LED indicators for power status, ensuring easy monitoring of its operation. As a product from **TP-LINK**, a leader in networking solutions, the EAP110 stands out for its reliability and advanced features, making it a superior choice for users seeking a robust and secure wireless network experience.
