## Aprašymas

### RBmAPL-2nD - MikroTik compact wireless router

**The RBmAPL-2nD router is the smallest device of its kind in the MikroTik company's offer. It is not much bigger than a matchbox and therefore can be easily mounted in a chosen place - on a computer, wall, etc.**

Its compact dimensions (48 x 49 x 11 mm) also allow taking it with you everywhere, which is useful especially during frequent travels to improve the signal quality or to use hotel network on all available devices. The solution is also a simple server configuration tool.

RBmAPL-2nD router has a built-in magnet, making it easy to install on metal devices. To place it on plastic or wooden surfaces, use an adhesive mount.

### Satisfactory parameters

The processor is clocked at 650 MHz. The device has 64 MB of RAM and one 10/100 Ethernet port. It is based on the RouterOS operating system and can operate at temperatures of up to 70 degrees Celsius.
