Aprašymas

ISO-BEAM-16 - functional Ubiquiti solution

The ISO-BEAM-16 is an anti-interference solution intended for NanoBeam NBE-M5-16 and NBE-5AC-16 devices.

The Ubiquiti solution efficiently reduces interference and protects from unfavourable weather conditions.

Installation

The radome is easy to install and the installation process does not require any specialised tools.

High quality

The ISO-BEAM-16 combines high quality and modern design. The case is built from durable components which leads to high resistance.

Key features

- efficient interference protection
- easy installation
- built from durable components
