Aprašymas

The **MikroTik netPower 15FR** (model code: **CRS318-1FI-15FR-2S-OUT**) is a robust and versatile networking solution designed for outdoor use. This product is part of MikroTik's renowned line of networking equipment, known for its reliability and performance in various environments. With its durable construction, the netPower 15FR is ideal for installations that require a reliable Ethernet switch in challenging conditions.

Equipped with **16 Fast Ethernet (10/100)** RJ-45 ports, the **netPower 15FR** provides ample connectivity options for your network devices. The device boasts a switching and routing capacity of **7.2 Gbit/s**, ensuring efficient data transfer and minimal latency. This makes it an excellent choice for both small and medium-sized networks that demand high performance.

The **netPower 15FR** operates with a **DC input voltage** range of **18 - 57 V**, allowing for flexible power supply options. It features a **DC-in jack** for easy connection to power sources. Additionally, the device supports **Power over Ethernet (PoE)**, enabling it to power connected devices directly through the Ethernet cables, simplifying installation and reducing cable clutter.

In summary, the **MikroTik netPower 15FR** is a reliable and efficient networking solution that combines durability with high performance. Its extensive features, including **16 Fast Ethernet ports**, a robust switching capacity, and PoE support, make it an excellent choice for outdoor networking applications. Trust in MikroTik's expertise to deliver a product that meets your networking needs.
