Aprašymas

The **MikroTik LtAP mini** (RB912R-2nD-LTm) is a compact and versatile device designed for seamless connectivity in various environments. This product is ideal for users seeking reliable wireless communication, whether for personal use or in professional settings. With a sleek **black color** and a design suitable for **table placement**, it fits well into any workspace.

Equipped with a maximum data transfer speed of **54 Mbit/s** over wireless LAN and **10/100 Mbit/s** through Ethernet LAN, the **MikroTik LtAP mini** ensures efficient data handling for your networking needs. The device supports a **Micro-USB** connection and features a WAN port for cellular network connectivity via SIM, making it a versatile choice for mobile applications.

With an input voltage range of **8 - 30 V** and a maximum power consumption of just **4 W**, this device is energy-efficient while delivering robust performance. The **1.5 dBi** antenna gain enhances signal strength, ensuring stable connections even in challenging environments. This makes the **MikroTik LtAP mini** an excellent option for users who require dependable wireless access on the go.

As part of the MikroTik product line, the **LtAP mini** stands out for its combination of functionality and compact design. It is suitable for various applications, including remote monitoring, IoT devices, and mobile networking solutions. With its advanced features and reliable performance, the **MikroTik LtAP mini** is a valuable addition to any tech-savvy user's toolkit.
