Aprašymas

The **Mikrotik HGO-antenna-OUT** is a high-performance outdoor antenna designed to enhance your wireless connectivity. With a maximum gain level of **7.1 dBi**, this antenna is engineered to provide superior signal strength and coverage, making it an ideal choice for both residential and commercial applications. Its robust design ensures durability and reliability in various outdoor environments.

Operating within a frequency range of **2.4 - 5 GHz**, the **Mikrotik HGO-antenna-OUT** is versatile enough to support a wide array of wireless devices and applications. Specifically, at **2.4 GHz**, it offers a gain of **3.3 dBi**, ensuring optimal performance for your wireless network. This makes it suitable for tasks ranging from simple internet browsing to more demanding applications like streaming and gaming.

This **omnidirectional antenna** is designed to provide 360-degree coverage, allowing for seamless connectivity in all directions. The **RP-SMA connector** with a female gender ensures compatibility with a variety of devices, making installation straightforward and hassle-free. Whether you are looking to improve your home network or enhance connectivity in a business setting, this antenna meets diverse needs.

In summary, the **Mikrotik HGO-antenna-OUT** is a reliable and efficient solution for boosting your wireless signal. With its impressive technical specifications and durable construction, it stands out in the market as a top choice for anyone looking to improve their wireless experience. Trust in the quality of **Mikrotik** and elevate your connectivity with this exceptional antenna.
