Aprašymas

The **TP-Link TL-SG1005P** is an advanced **unmanaged switch** designed to enhance your network's performance and efficiency. With five **RJ-45 Ethernet ports** that support **Gigabit Ethernet** (10/100/1000), this switch significantly boosts network capacity, making it an ideal choice for both home and small office environments. The **TP-Link** brand is renowned for its reliable networking solutions, and the TL-SG1005P exemplifies this commitment to quality and performance.

One of the standout features of the **TP-Link TL-SG1005P** is its **Power over Ethernet (PoE)** capability on four of its ports. This innovative technology allows the switch to deliver both electrical power and data through a single cable to **PoE-enabled devices** such as IP cameras and VoIP phones, simplifying installation and reducing cable clutter. With a **switching capacity of 10 Gbit/s** and a MAC address table that can store up to **2000 entries**, this switch ensures seamless data transmission even during peak usage times.

Compliant with several important networking standards, including **IEEE 802.1p** for Quality of Service (QoS), **IEEE 802.3af** for PoE, and **IEEE 802.3x** for flow control, the **TP-Link TL-SG1005P** enhances the overall reliability and efficiency of your network. Its plug-and-play design allows for easy setup without the need for management software, making it a practical solution for expanding your network capabilities. Trust in the **TP-Link** name for a robust and efficient networking experience.
