Aprašymas

Mikrotik RB960PGS hEX PoE Wired Router White

Mikrotik hEX PoE

hEX PoE is a five port Gigabit Ethernet router for locations where wireless connectivity is not required. The device has a USB 2.0 port and a SFP port for adding optical fiber connectivity. The ports 2-5 can power other PoE capable devices with the same voltage as applied to the unit.

It is affordable, small and easy to use, but at the same time comes with a very powerful 800MHz CPU, capable of all the advanced configurations that RouterOS supports. Less power adapters and cables to worry about! Max current is 1A per port, Ethernet ports are shielded.

It also supports passive PoE input and passive or 802.3af/at PoE output. Ethernet ports 2-5 can power other PoE capable devices with the same voltage as applied to the unit. Less power adapters and cables to worry about! It can power at/af mode B (4,5+)(7,8-) compatible devices, if 48-57 input voltage is used.

Additional Product Notes

1. 5x Gigabit Ethernet with PoE output for four ports, SFP, USB, 800MHz CPU, 128MB RAM, RouterOS L4

Networking standards	Ethernet LAN data rates	Flash memory	Internal memory	Ethernet LAN (RJ-45) ports	USB ports quantity
IEEE 802.3at	10,100,1000 Mbit/s	16 MB	128 MB	5	1
