Aprašymas

Enhance your network performance with the Teltonika PR1US440, featuring an antenna gain level of 3 dBi. Designed to operate across a wide frequency band of 0.698-0.96/1.71-2.69 GHz, this antenna ensures compatibility with a broad range of signal frequencies. With an impedance of 50 Ω, it efficiently maintains signal integrity and strength. The antenna utilizes an SMA connector with a male gender, facilitating easy and secure connections to compatible devices. It employs linear polarization to reduce signal interference and increase reception clarity. The compact design, with a width of 198 mm, allows for easy installation in various settings without requiring extensive space. Each pack contains one antenna, making it a straightforward solution for enhancing your network's reach and quality. Whether for personal or professional use, the Teltonika PR1US440 provides a significant boost in signal performance and stability.
