Aprašymas

The **TP-LINK JetStream 16-Port Gigabit Easy Smart PoE/PoE+ Switch** (model: **TL-SG1218MPE**) is a managed, Layer 2 switch designed to enhance network management and deployment efficiency. With 16 RJ-45 Ethernet ports supporting **Gigabit Ethernet** (10/100/1000), this switch is ideal for high-speed data transmission requirements, making it a reliable choice for both small and medium-sized business environments. Its **Power over Ethernet (PoE)** capabilities on all ports simplify the installation of PoE-compatible devices, such as IP cameras and wireless access points, by eliminating the need for additional power cables.

This switch features a robust **MAC address table** with 8000 entries and a switching capacity of **36 Gbit/s**, ensuring smooth traffic management and enhanced network efficiency. It complies with multiple networking standards, including **IEEE 802.1Q** for VLAN management and **IEEE 802.1p** for Quality of Service (QoS) management, allowing for flexible network segmentation and prioritization of traffic based on various service types. This capability sets it apart from many competitors, providing a significant advantage in managing complex network environments.

Designed for **rack mounting**, the TL-SG1218MPE occupies just 1U of rack space, making it an efficient solution for installations where space is at a premium. The combination of its advanced features and compact design makes it a valuable component for businesses looking to optimize their network infrastructure. With TP-LINK's commitment to quality and innovation, this switch stands out as a reliable choice for enhancing network performance and reliability.
