Aprašymas

The **TP-Link TL-SG1428PE** is a state-of-the-art **28-Port Gigabit Easy Smart Switch** designed to enhance network management and deployment. This **managed switch** operates at **Layer 2** of the OSI model, featuring 26 **Gigabit Ethernet (10/100/1000)** ports that provide high-speed connectivity and efficient data transfer rates. With its support for **Power over Ethernet (PoE+)**, the TL-SG1428PE can power devices such as IP cameras, VoIP phones, and wireless access points directly through network cables, significantly reducing the need for additional power supplies.

Equipped with a robust **MAC address table** capable of holding up to 8000 entries and a **switching capacity** of 56 Gbit/s, this switch is designed to handle substantial data traffic, ensuring enhanced network performance and reliability. The TL-SG1428PE adheres to multiple networking standards, including **IEEE 802.1Q**, **IEEE 802.1p**, and various **IEEE 802.3** protocols, which guarantees broad compatibility with existing network hardware and configurations. This makes it an ideal choice for businesses looking to upgrade their network infrastructure.

Designed for **rack mounting** and occupying a **1U space**, the TP-Link TL-SG1428PE is perfectly suited for installation in standard server racks, making it a space-saving solution for modern data centers and networking closets. Its advanced features and reliable performance set it apart from competitors, making it a preferred choice for organizations that require a high-performance networking solution. Trust in TP-Link's reputation for quality and innovation to meet your networking needs.
