Aprašymas

The **TP-Link AC1200 Mesh Wi-Fi Range Extender** (model **RE315**) is an advanced network repeater designed to significantly enhance your Wi-Fi coverage and performance. This device is engineered to support a remarkable data transfer rate of up to **867 Mbit/s**, making it an ideal solution for streaming, gaming, and browsing without interruptions. With its compatibility with multiple Wi-Fi standards, including **802.11a**, **802.11b**, **802.11g**, **Wi-Fi 4 (802.11n)**, and **Wi-Fi 5 (802.11ac)**, the RE315 ensures seamless connectivity across various devices.

Equipped with external antennas, the RE315 operates at transmitting power levels of **2.4 GHz ≤20dBm** and **5 GHz ≤30dBm**, providing robust signal strength and extensive coverage throughout your home or office. The device utilizes **10/100Base-T(X)** cabling technology and adheres to networking standards such as **IEEE 802.11a**, **IEEE 802.11ac**, **IEEE 802.11b**, **IEEE 802.11g**, and **IEEE 802.11n**, ensuring reliable and high-speed internet access. This makes it a superior choice for users looking to eliminate dead zones and enhance their overall network performance.

The **TP-Link** brand is synonymous with quality and innovation in networking solutions, and the RE315 is no exception. It operates within an AC input voltage range of **100 - 240 V** and an AC input frequency of **50/60 Hz**, with a maximum power consumption of just **9.5 W**. Certified by **CE** and **RoHS**, this range extender not only meets regulatory standards but also reflects TP-Link's commitment to providing environmentally friendly products. Enhance your Wi-Fi experience with the TP-Link AC1200 Mesh Wi-Fi Range Extender, a reliable and efficient solution for your connectivity needs.
