Aprašymas

The **TP-Link LS1005 LiteWave 5-Port 10/100 Mbps Desktop Switch** is an exceptional unmanaged switch designed to enhance your networking experience. With five **RJ-45 Ethernet ports** supporting **Fast Ethernet** speeds of **10/100 Mbps**, this device is ideal for a variety of networking needs, whether at home or in a small office environment. The switch's ability to facilitate fast and reliable connections makes it a valuable addition to any network setup.

Equipped with a robust **MAC address table** that can hold up to **2000 entries**, the TP-Link LS1005 ensures efficient network management and seamless connectivity. Its impressive **switching capacity of 1 Gbit/s** allows for smooth data transmission across multiple devices without significant delays, setting it apart from many competitors in the market. This feature is particularly beneficial for users who require consistent performance for streaming, gaming, or large file transfers.

Compliant with several networking standards, including **IEEE 802.3i**, **IEEE 802.3u**, and **IEEE 802.3x**, the TP-Link LS1005 guarantees compatibility with a wide range of networked hardware. Operating on a **DC input voltage of 5V**, this switch is designed with energy efficiency in mind. Its compact design allows for easy placement on any desk or wall mounting, providing flexibility in setup and use, making it a practical choice for any networking scenario.
