Aprašymas

The **Mikrotik TOF-2400-8V-4** is a high-performance antenna designed for optimal wireless connectivity. With a maximum gain of **8 dBi**, this antenna ensures enhanced signal strength and coverage, making it an ideal choice for various applications in the 2.4 GHz frequency range. The frequency band of **0.240 - 0.250 GHz** allows for versatile use in different networking environments, ensuring reliable performance.

Engineered with a **50 Ω impedance**, the **TOF-2400-8V-4** is compatible with a wide range of devices, providing seamless integration into your existing network setup. This **omnidirectional antenna** is designed to transmit and receive signals in all directions, making it perfect for both indoor and outdoor installations where comprehensive coverage is required.

Measuring **25 mm in width**, **550 mm in depth**, and **25 mm in height**, the **Mikrotik TOF-2400-8V-4** is compact yet powerful, allowing for easy installation without compromising on performance. The antenna features an **SMA connector**, ensuring a secure and reliable connection to your devices.

As part of the renowned **Mikrotik** product line, the **TOF-2400-8V-4** stands out for its quality and reliability. Whether you are setting up a home network or enhancing a commercial system, this antenna provides the technical specifications needed for superior wireless communication. Trust in the **Mikrotik** brand to deliver exceptional performance and durability in your networking solutions.
