Aprašymas

The **Mikrotik Outdoor AC/DC Power Supply** is a robust and reliable solution designed for outdoor use, providing a powerful **53V 250W output**. This external power supply is capable of converting **AC to DC**, making it an ideal choice for network switches that require stable power in various environmental conditions. With a wide input voltage range of **100-240V** and a maximum input current of **3.5A**, this power supply ensures compatibility with different electrical systems.

Engineered to withstand harsh weather, the Mikrotik power supply boasts an impressive **IP67 rating**, ensuring protection against dust and water ingress. This feature, combined with its operational temperature range of **-40 to 70 degrees Celsius**, makes it suitable for deployment in extreme environments. Additionally, it is certified by **CE, FCC, and IC**, guaranteeing compliance with international safety standards.

With its durable zinc construction and high-performance specifications, the **Mikrotik Outdoor AC/DC Power Supply** stands out as a reliable choice for those needing a resilient and efficient power solution for their networking equipment. Its combination of weather resistance and powerful output makes it a superior option compared to standard power supplies.
