Aprašymas

HPE ARUBA 6100 MANAGED SWITCH - POWER AND PERFORMANCE IN NETWORKING

The HPE Aruba Networking Aruba 6100 is a high-performance, managed switch that is perfectly suited for demanding network environments. With 48 Gigabit Ethernet ports and PoE power supply capability, this model offers flexibility and versatility, enabling device power without the need for additional cables. Its advanced features, such as a routing throughput of 176 Gbit/s and support for various communication standards, ensure reliability and efficiency in managing network traffic. Thanks to its compact 1U design, the switch can be easily installed in a rack, making it an ideal solution for companies looking to optimize their network resources.
