Aprašymas

MODERN CISCO 150AX ACCESS POINT WITH WI-FI 6 AND MESH TECHNOLOGY

The Cisco Business 150AX Access Point is an innovative solution that delivers top wireless performance using the latest Wi-Fi 6 standard (IEEE 802.11ax). With mesh technology, the access point allows for flexible network expansion where traditional cabling may not be available, making it perfectly suited to meet the growing demands of modern work environments. It easily supports Wi-Fi 6 integrated devices such as smartphones, tablets, and high-performance laptops, while being fully compatible with earlier 802.11ac standards. Simple setup via the Cisco Business Mobile app or the integrated WebUI interface makes using this technology a pleasure.

BOOST NETWORK PERFORMANCE WITH CISCO BUSINESS 150AX ACCESS POINT

The Cisco Business 150AX Access Point, compliant with the 802.11ax standard, is an innovative solution that offers impressive data transmission speeds of up to 1.2 Gbps on the 5 GHz band, surpassing the performance of older 802.11ac standards. With a total data aggregation of up to 1 Gbps in dual-radio mode, this device provides a solid foundation for the growing expectations of users regarding wireless network performance. In light of the increasing popularity of wireless networks in small businesses, the Cisco Business 150AX not only ensures reliability but also exceptional security, creating an optimal environment for users that meets their performance and connection quality needs.

DISCOVER A NEW QUALITY OF WI-FI WITH CISCO BUSINESS 150AX ACCESS POINT

The Cisco Business 150AX Access Point is a modern solution that meets the demands of contemporary wireless networks, offering support for the latest Wi-Fi 6 standard. With advanced mesh technology, the device provides not only increased performance but also wide coverage, which is crucial in densely populated environments. With simultaneous dual radios and dual-band 802.11ax support, the 150AX handles the growing number of devices requiring high bandwidth. Its flexibility in mounting — on the ceiling or wall — and the ability to easily expand with additional network hardware make it an ideal solution for dynamically growing offices and workspaces.

EASILY MANAGE YOUR NETWORK WITH CISCO BUSINESS MOBILE APP

The Cisco Business Mobile app is an innovative solution that revolutionizes the way wireless networks are managed using mobile devices. With the Cisco Business 150AX Access Point, users can easily deploy and monitor their network without being IT specialists. The app allows for quick addition of new network extenders using QR codes and activation of the wireless network in just a few minutes. Its advanced management features enable dynamic changes to network configurations, including enabling secure guest access. Additionally, monitoring network usage, traffic patterns, and bandwidth provides valuable insights into network performance, leading to optimal user experiences. The app is available in stores for both iPhone and Android devices, making it an incredibly accessible tool for everyone.
