Aprašymas

The **TP-Link JetStream 48-Port Gigabit L2+ Managed Switch** with **4 10GE SFP+ Slots** is engineered to meet the demanding requirements of contemporary network environments. This robust switch features **48 Gigabit Ethernet ports** that support speeds of **10/100/1000 Mbps**, ensuring seamless connectivity for a variety of devices. The inclusion of **four 10GE SFP+ slots** allows for high-speed fiber connections, making it an ideal choice for businesses looking to enhance their network infrastructure.

Designed for comprehensive control, this **managed switch** boasts a powerful **MAC address table** capable of holding up to **16,000 entries**, along with a remarkable **switching capacity of 176 Gbit/s**. This ensures efficient handling of large data volumes, significantly improving network performance. The switch supports multiple networking standards, including **IEEE 802.1d, IEEE 802.1q, IEEE 802.1s, IEEE 802.1w, and IEEE 802.3ad**, providing flexibility for various network setups and configurations.

For enhanced management capabilities, the switch includes a **console port** that accommodates both **RJ-45** and **micro-USB** connections, offering versatility for network administrators. Its **1U rack-mountable design** makes it suitable for standard server racks, while the reliable **AC-in power supply** ensures consistent operation. The TP-Link JetStream series stands out for its exceptional performance and reliability, making it a superior choice for organizations aiming to boost their network capacity and efficiency.
