Aprašymas

The **TP-Link JetStream 48-Port Gigabit and 4-Port 10GE SFP+ L2+ Managed Switch** (Model: **TL-SG3452XP**) is engineered to fulfill the demands of high-performance, high-density networking environments. With **48 Gigabit Ethernet ports** and **4 10GE SFP+ ports**, this switch offers substantial bandwidth and flexibility, making it ideal for a variety of network applications. Its robust design ensures that it can handle the increasing data traffic of modern networks with ease.

One of the standout features of the **TL-SG3452XP** is its support for **Power over Ethernet (PoE+)**, which allows for the direct powering of devices such as **IP cameras**, **VoIP phones**, and **wireless access points** through network cables. This capability not only simplifies deployment but also significantly reduces installation costs, providing a competitive edge over traditional networking solutions. The switch adheres to a comprehensive set of networking standards, including **IEEE 802.1D**, **IEEE 802.1Q**, and **IEEE 802.3af**, ensuring effective traffic management and enhanced security.

With a remarkable **switching capacity of 176 Gbit/s** and a **MAC address table** that accommodates up to **16,000 entries**, the **TP-Link JetStream** switch excels in efficiently managing large volumes of data. For ease of management and setup, it features both **RJ-45** and **Micro-USB console ports**. Its **1U rack-mountable** design makes it a perfect fit for standard server racks, optimizing space in physical network environments while delivering reliable performance.
