Aprašymas

The **TP-Link TL-SX105** is an unmanaged **5-port 10G multi-gigabit desktop switch** designed to meet the demands of high-speed networking. With five **RJ-45 Ethernet ports** supporting **10G Ethernet** (100/1000/10000), this switch is ideal for a variety of **bandwidth-intensive tasks**. Its substantial **MAC address table** with 32,000 entries and a remarkable **switching capacity** of 100 Gbit/s ensure efficient handling of network traffic, making it a reliable choice for users who require seamless connectivity.

Compliant with multiple networking standards, including **IEEE 802.1p**, **IEEE 802.3ab**, **IEEE 802.3an**, **IEEE 802.3bz**, **IEEE 802.3u**, and **IEEE 802.3x**, the **TP-Link TL-SX105** is engineered to provide a dependable networking experience. Its **wall-mountable design** offers flexibility in installation, making it suitable for various environments where space might be a constraint. This feature enhances its usability in both home and office settings, allowing for optimal placement without compromising on performance.

As part of TP-Link's commitment to delivering high-quality networking solutions, the **TL-SX105** stands out for its ability to aggregate multiple devices with large data transfer rates. This makes it particularly useful in scenarios where high-speed, wired connections are essential. Whether you are expanding your network or enhancing your existing setup, the **TP-Link TL-SX105** provides an effective solution that meets the needs of modern networking demands.
