Aprašymas

The **TP-Link Tapo Mini Smart Wi-Fi Socket** is an innovative solution designed for modern homes, allowing users to monitor energy consumption effortlessly. With a maximum input power of **3680 W** and a current rating of **16 A**, this smart socket is perfect for a variety of household appliances. Its sleek **white design** ensures it blends seamlessly into any interior while providing functionality and convenience.

Equipped with **Wi-Fi connectivity** operating on a frequency of **2.4 MHz**, the Tapo Mini Socket supports standards such as **802.11b, 802.11g, and Wi-Fi 4 (802.11n)**. This allows for reliable and stable connections, enabling users to control their devices remotely via the Tapo app. The socket operates effectively within a temperature range of **0 - 35 °C** and a relative humidity of **10 - 90%**, making it suitable for indoor use.

As part of the Tapo line by **TP-Link**, this smart socket not only enhances convenience but also promotes energy efficiency in your home. With its advanced energy monitoring capabilities, users can track their energy usage and make informed decisions to reduce consumption. The TP-Link Tapo Mini Smart Wi-Fi Socket is a must-have for anyone looking to upgrade their home automation system.
