Aprašymas

The **TP-Link TL-SX1008** is an advanced **8-Port 10G Desktop/Rackmount Switch** designed to enhance your network's performance with high-speed connectivity. This **unmanaged switch** features eight **10G Ethernet (100/1000/10000) RJ-45 ports**, making it ideal for various networking needs. With a substantial **MAC address table** of 32,000 entries, it ensures efficient data handling and seamless communication across devices, catering to the demands of modern data-intensive operations.

Engineered for optimal performance, the **TP-Link TL-SX1008** delivers an impressive **switching capacity** of 160 Gbit/s, allowing for smooth data transmission even during peak traffic periods. This switch adheres to multiple networking standards, including **IEEE 802.3, IEEE 802.3ab, IEEE 802.3an, IEEE 802.3bz, IEEE 802.3p, and IEEE 802.3x**, ensuring compatibility with a wide range of network protocols and devices. Its robust design makes it particularly suitable for small to medium-sized business networks that require reliable, high-speed connections without the need for complex management.

The **1U form factor** of the **TP-Link TL-SX1008** allows for easy rack mounting, optimizing space and facilitating efficient integration into existing server environments. This switch is built to meet the growing demands of businesses that rely on high-speed networking for their operations. With its exceptional performance and reliability, the **TP-Link TL-SX1008** stands out as a superior choice for organizations looking to enhance their network infrastructure.
