Aprašymas

The **TP-Link VIGI NVR1016H** is a state-of-the-art **16-channel network video recorder** designed to enhance your surveillance capabilities. With the ability to support video input for up to 16 channels, this device ensures comprehensive monitoring of your premises. It records in high-definition resolutions, including **720p** and **1080p**, providing clear and detailed footage that is essential for effective security management.

This advanced network video recorder features a maximum storage capacity of **10 TB** through its SATA HDD interface, allowing for extensive video storage without compromising on quality. The VIGI NVR1016H utilizes cutting-edge video compression standards such as **H.264**, **H.264+**, **H.265**, and **H.265+**, which not only enhance storage efficiency but also ensure smooth video transmission. Additionally, it supports various video output resolutions, including **1920 x 1080** and **1280 x 720**, ensuring compatibility with a wide range of monitors.

Equipped with an Ethernet LAN interface that supports data rates of **10/100 Mbit/s**, the VIGI NVR1016H guarantees robust network connectivity for seamless operation. Its sleek black casing adds a touch of sophistication while allowing it to blend discreetly into any security setup. Powered by a **12V DC** supply with an output current of **1.5A**, this model stands out in the market for its reliability and performance, making it an ideal choice for those seeking a high-quality surveillance solution.
