Aprašymas

The **Western Digital Ultrastar DH HC570** is a high-capacity hard disk drive designed for enterprise-level storage solutions. With an impressive **HDD capacity of 22 TB**, this drive is ideal for data-intensive applications, including cloud storage, big data analytics, and high-performance computing. The **3.5" HDD** format ensures compatibility with a wide range of server and storage systems, making it a versatile choice for businesses looking to expand their storage capabilities.

Operating at a robust **7200 RPM**, the Ultrastar DH HC570 delivers exceptional performance, ensuring quick data access and retrieval. The **512 MB storage drive buffer size** enhances data transfer rates, allowing for efficient handling of large files and multiple simultaneous operations. This drive is built on **SAS interface** technology, which provides superior reliability and speed compared to traditional SATA drives, making it a preferred option for mission-critical applications.

Manufactured by **Western Digital**, a leader in data storage solutions, the Ultrastar DH HC570 is part of their renowned Ultrastar line, known for its durability and performance. This model is engineered to withstand the demands of 24/7 operation, ensuring that your data remains safe and accessible at all times. With its advanced technology and high capacity, the Ultrastar DH HC570 stands out as a powerful solution for enterprises seeking to optimize their data storage infrastructure.
