Aprašymas

The Teltonika PR5MEC21 is a 4-pin power connector adapter designed to facilitate I/O functionality for compatible Teltonika Networks devices. It features a standard 4-pin to 4-pin power connection, enhanced by an additional terminal for configurable digital inputs and outputs. This adapter supports a cross-section of connections ranging from 0.14 to 0.5 mm², making it versatile for various wiring requirements. Crafted for indoor use, the adapter is housed in a durable black casing that ensures it blends seamlessly with other equipment. The lightweight design of the adapter, weighing just 15 grams, allows for easy installation and handling. Each package contains one piece of the PR5MEC21 adapter, ensuring that users receive a single, robust solution for their connectivity needs. The Teltonika PR5MEC21 is specifically tailored to expand the capabilities of network devices by providing additional access points for input and output configurations, thereby enhancing device functionality and user experience.
